| Astra Extra (Pipeline B) | ran — Pipeline B. Independent OpenAI replay of the same evidence bytes.  |
| Jev                      | ran — Typed router over Fable and Astra. Policy still vetoes the action. |

Limitations

- Physical copies and prices require operator review where evidence is incomplete.
- Web prices are draft evidence until confirmed; eBooks and rentals are excluded.
- Building figures use demo replacement-cost rates, not market sale value.
- Model agreement is not independent ground truth.
- After seal, Fable (A) and Astra replay (B) run on every AssetCopy independently. Jev scores A vs B and does not write count or price. Astra-live during Pass B/C is sampled assist metadata, not Pipeline B.
- Configured default model IDs are not a live confirmation of provider access.
